CANCELLED!

FAQs:

1. The programs show a specific grade range. Can we enroll our child in a program if she is not within that grade range? E.g. the FUNancial Freedom Game shows for grades 5-6 students.

Answer: The grade range shown for our programs are flexible. Because we want your child to have the best learning experience in our programs, we suggest you contact us at 905-882-3130 or info@knowledgemakescents.com to determine which program is the best fit for your child.

2. If my child is not a Spirit of Math student, can he enroll in the Knowledge Makes Cents program at the Spirit of Math location?

Answer: Yes definitely! We welcome your child to enroll in our program(s). Your child does not have to be a Spirit of Math student nor need to enroll in the Spirit of Math programs.

COVID19 – Safety and Wellness Protocol at In-person Summer Camp

Safety and wellness of our students is paramount to us. And KMCents complies with all COVID19-related orders and guidelines from the government and public health authorities (see link below). In our classrooms, including our summer camps, we are committed to the following preventive measures, until further instructions from authorities:

- All supplies provided by KMCents are disinfected before class
- Before the class starts, all the desks and chairs to be used will be wiped down with disinfectant wipes
- Before the class starts, temperatures of each student and the teachers will be taken using a contactless forehead thermometer
- Before the class starts, all students and the teacher will wash or sanitize their hands
- Before the class starts, students will be reminded to sneeze or cough into a tissue or into their elbow, and to wash or sanitize their hands afterwards
- Students will sit one at a desk ensuring they are at least 2 metres apart and the number of students per class has been significantly reduced
- The teacher will wear a face covering at all times
- Students must wear face coverings if physical distancing of at least 2 metres cannot be maintained
- KMCents normally provides ALL the materials needed during the class, however during this government order, we wish to reduce the sharing of supplies between students. Thus, we will request that students bring and use their own pen/pencils, markers/pencil crayons, a glue stick, and small scissors.
- At the end of class, all students and teacher will wash or sanitize their hands
- Parents will be asked to remain outside of the campus for drop off and pick up

At the Spirit of Math summer camps, there will be only one class occurring at a time in the whole campus thus providing more than sufficient space for physical distancing.

Version 2 – June 28, 2020
